# DR. ALVIN J. WILLIAMS

## SPEAKER

Dr. Alvin J. Williams is chair of marketing and quantitative methods in the University of South Alabama's Mitchell College of Business.

His selected areas of research interest include business-to-business marketing management, buyer-seller interfaces, supply chain integration, role of trust in supply chain management, application of creative problem-solving to sales and supply success, and application of marketing and sales to supply chain performance. He presently teaches upper-level courses in supply chain management, business-to-business marketing, sales and sales management, and special topics in marketing, including study abroad courses in Australia, Costa Rica and Panama.

Williams earned a doctorate in marketing from the University of Arkansas in 1980. His dissertation was "An Exploratory Study of Satisfaction/Dissatisfaction and Complaining Behavior Among Organizational Buyers." He received a master of arts in marketing from the University of Alabama in 1975 and a bachelor of science with a major in marketing in 1974 from the University of Southern Mississippi.

The professor has received numerous awards for distinguished contributions to business education and practice, including the John H. Hoagland Award from the education resources committee of the Institute for Supply Management, or ISM, in 2013. In 2011, he received the Outstanding Faculty Award at South. He was only the fourth recipient of this award.

Williams is a past president and co-chair of the board of governors of the Society for Marketing Advances. He is also a

former editor of the "Journal of Supply Chain Management" and associate editor of "International Journal of Purchasing & Materials Management." Presently, he serves on the editorial review boards of "Journal of Business Research" and "Journal of Marketing Theory and Practice."

Williams has published numerous articles in various academic journals and professional publications, including "Industrial Marketing Management," "Journal of Supply Chain Management," "Supply Chain Management Review," and "Journal of Personal Selling and Sales Management."

In 2012, Williams received a Caesars Hospitality Research Center Grant Award from the University of Nevada at Las Vegas for research on "Sustainable Supply Chain Integration in the Hospitality Industry: A Triangular Approach to Best Practices."

He has presented numerous papers at business conferences across the U.S. and internationally, including New Zealand, Ghana, Peru, Hungary, China, Sweden, India and France.

His volunteer leadership roles include service on the ISM Educational Resources Committee, the CAPS Research Board of Trustees, and the ISM Business Survey Advisory Committee. He has conducted more than 350 presentations and seminars for supply management and marketing professionals in the United States, Europe, South Africa, India and China.

Before coming to USA in 2008, Williams was chair and professor of marketing at the University of Southern Mississippi in Hattiesburg where he was a member of the faculty for more than 28 years. He began his academic career as an instructor at Alabama A&M from 1975 until 1977.

At South, Williams has served on the 2013 Presidential Search Committee and the University Diversity Committee. In the Mitchell College of Business, he has served on the Doctor of Business Administration Committee, Marketing Faculty Search Committee, Curriculum Committee and Strategic Planning Committee.

His community service includes serving on boards of the United Way of Southeast Mississippi, Habitat for Humanity, Gulf Pines Girl Scouts Council, Salvation Army, and the Boys and Girls Club.

He is a member of True Light Baptist Church in Hattiesburg, Miss., where he is a member of the board of deacons and a Sunday school teacher.

# UNIVERSITY OF SOUTH ALABAMA

## A BRIEF HISTORY

**T**he University of South Alabama was founded in 1963 without a single building to call its own. More than 55 years and quite a few buildings later, USA is a vibrant university that continues to serve as a catalyst for transformational change in the city, the state and the Gulf Coast region.

USA's story began in the early 1960s, when Mobile's civic leaders saw the need to improve access to higher education in southwest Alabama. Realizing the region had outgrown the small extension program that operated

out of a building downtown, they formulated plans for a four-year, degree-granting institution. On May 3, 1963, a bill creating a new, independent university successfully passed the Alabama Legislature, and USA was born. Classes began in June 1964 at a new, \$1 million building in west Mobile. Initial enrollment totaled 276. The extent of the pent-up demand for education became obvious when the first fall semester began. Enrollment leaped to 928 — and it continues to grow. Today, USA enrolls more than 15,000 students annually and has awarded more than 90,000 degrees.

The first campus building is now named the Frederick Palmer Whiddon Administration Building, after USA's first president. Whiddon helped establish the University and remained at its helm until retiring in 1998. His successor, longtime faculty member and administrator V. Gordon Moulton, oversaw a new era of growth into the 21st century. Dr. Tony G. Waldrop, selected in 2014 as USA's third president, continues the USA tradition of visionary leadership focused on discovery, health and learning.

As new programs attracted more students, the University's footprint and facilities expanded. Almost from the moment USA accepted its first students, its leaders began ambitiously working toward establishing a medical school. The College of Medicine charter class began in 1973, and USA's focus on health education was later complemented by the College of Nursing and the Pat Capps Covey College of Allied Health Professions.

Today, USA provides high-quality education in business, the liberal arts, education, engineering, computing, the sciences and health care. It offers more than 100 undergraduate, graduate and doctoral degrees through its colleges and schools. The University campus includes USA Technology & Research Park, an incubator of economic development and technological innovation. On the east side of Mobile Bay, USA's Baldwin County Campus provides Eastern Shore residents convenient access to educational programs.

The University of South Alabama includes USA Health, composed of two hospitals — USA Health University Hospital and USA Health Children's & Women's Hospital — along with the USA Health Mitchell Cancer Institute and the USA Health Strada and Mastin patient care centers. This network of advanced health care services has improved the lives of countless residents throughout the region.

A charter member of the Sun Belt Conference, USA fields 17 Division I sports teams, including baseball, softball, basketball, soccer, volleyball, tennis, golf, cross country and track and field. The Jaguars have won four straight conference all-sports trophies and, in 2020, the football team will play on campus in the new Hancock Whitney Stadium.

## ACADEMIC REGALIA

Academic regalia can be traced back to European universities and ecclesiastical practices of the Middle Ages. As early as 1321, costumes identified the status of the wearer. In addition to signaling differences of degree, the garments had functional purposes, providing necessary warmth in sparsely heated buildings.

Regalia differentiate among the three degree levels used by our University; bachelor's, master's, and doctoral degrees. Common to all three levels is the headwear; the familiar square black mortarboard, although soft velvet tams may be worn by those holding doctorates. The gowns appropriate to the three ranks differ in the shape of the sleeves and in the special trim found on the doctoral gown. The bachelor's gown, which is unadorned, has wide sleeves that are pointed at the bottom. The master's gown has curiously designed sleeves, which are elongated at the rear and reach downward to the gown's bottom hem. The doctoral gown has bell-shaped sleeves and is distinctively trimmed with velvet facings down the front and three velvet bars on each sleeve. These trimmings may be black or the color appropriate to the discipline in which the degree was awarded.

The hoods worn by those holding the master's and doctoral degrees provide the color of the academic procession. These garments are draped over the shoulders and back of the wearer to display the linings, which present the colors of the university awarding the degree. Those holding degrees from the University of South Alabama wear hoods lined with chevrons of red, white, and blue. The hoods also have velvet binding, three inches wide for the master's degree and five inches for the doctorate, in a color designating the discipline.

## THE MACE

Originally used as a medieval weapon, the mace evolved as a symbol of academic dignity and authority by colleges and universities in the 16th century. Traditionally, the mace is carried as a part of formal academic processions. The University of South Alabama mace, carried by the president of the Faculty Senate acting as chief marshal of commencement ceremonies, was designed by Dr. James Conlon, a professor of art at USA from 1967-1997.

In Conlon's words, his goal was to create a design that captured "an open form which symbolizes the primary functions of the University — that of support and protection for the growth of knowledge and scholarship represented by the golden orb." The engraved attributes of Responsibility, Virtue, Charity, Dedication, Fidelity, Fortitude, Honor, and Industry surround and uphold the symbol of knowledge.

# UNIVERSITY AND COLLEGE GONFALONS

The students will proceed to their respective places behind gonfalons. Gonfalons are the flags or banners, hung from crosspieces on poles, used since medieval times in the republics of Italy as symbols of state or office. The top portion of each college's gonfalon is the designated color for each unit; white is the background color for each of the colleges' symbols, as well as one of the University's colors. To help identify each college gonfalon, a description of each follows:

## University Gonfalon

The University of South Alabama's colors of red, white and blue predominate with the University's official seal in the center of the white section.

## College Gonfalons

**Arts and Sciences:** The globe in the College of Arts and Sciences' gonfalon symbolizes study of human societies, cultures and behaviors. The microscope represents the scientific study of nature. The paintbrush, palette and lyre connote artistic performance and appreciation of the arts, and the book is symbolic of a life informed by learning.

**Education and Professional Studies:** The flourishing flame blazoned with red and light blue signifies the burning zeal of the three missions of education - teaching, research and service. The hands hold the spiritual, social and intellectual flame of education.

**Engineering:** The Earth is the ground stability, a foundation for life and for the structure of humanity and nature. The College of Engineering invites discovery and investigation into the realm of ever-changing worldwide technologies. The bridge is a symbol of engineering design. It is the essence of learning, the container of intellect and the spirit of wisdom that creates destinies.

**Medicine:** The caduceus is a wing-topped staff intertwined by two snakes and was carried by Hermes, Greek messenger of the gods. In early cultures the intertwined snakes symbolized healing. The caduceus has been a symbol of medicine since the 16th century.

**Mitchell College of Business:** The Mitchell College of Business uses the symbol of a club which is associated with money, wealth, work and luck. The color purple symbolizes the rank of authority. The gold lozenges represent the flow of order.

**Nursing:** Three blue stars blazoned with gold symbolize caring, innovation and empowerment. The two shafts of wheat represent nourishment and strength, while the globe illustrates the universal presence of nursing. The burning lamp of Florence Nightingale and the red cross signify the history and origins of nursing.

**Pat Capps Covey College of Allied Health Professions:** This symbol depicts the many health care professions that make up the health care team. The supporting hands and the red center represent the caring nature and the heart of the various professions represented in the Pat Capps Covey College of Allied Health Professions.

**School of Computing:** The design of the School of Computing is made up of two symbols appropriate to the School; the flame of knowledge and the globe. The flame of knowledge is derived from three distinct disciplines: Science represented by the blue, Engineering represented by the orange, and Business represented by the tan. The globe symbolizes both the wide reaching effect of the discipline and the diversity of the School's population.

**The Graduate School:** The columns are indicative of the pursuit of advanced knowledge built on the strong foundation of earlier educational attainments. The earth represents the wide range of studies pursued in graduate studies and their broad applications for the betterment of the world. The oak spray represents strength and endurance in pursuit of goals.
